

## Product information

### DROP

#### Plastic table.

**Plastic table**, round or square, four-legged for flexible use indoors or outdoors, e.g. in break areas, great halls or the canteen. Table made from glass fibre-reinforced polypropylene with UV stabilizer. The material is tough, weather-resistant, water-repellent and easy to clean. The tabletop has flattened edges. The table legs with plastic glides are delivered disassembled and attached to the table top with screws.

**The following material groups are available:** Body made of plastic: C(white, dolphin grey).
