

Product information

FlipTable-RU

Standing and sitting table with round frame and folding top.

Frame made from two bent, powder-coated or chrome-plated steel tubes with a centrally positioned black steel cross-piece with an articulated bracket.

Table in 3 or 4 fixed sitting heights depending on model, 2 fixed standing heights, or 3 step height adjustable options, heights in accordance with DIN EN 1729.

Tabletop made from a chipboard core and a continuous pressure laminated surface (CPL), a laminated or veneer-coated LIGNOpal chipboard with plastic or wooden edge, or a phenolic (HPL) top.

Function: The table can be flipped using a two-handed safety mechanism under the tabletop and the top locks in both horizontal and flipped positions. When the top is flipped the tables can be nested together to save space.

Equipment and options: Tables with 4 lockable casters. Optionally available with table connectors, and with writable tabletop surface to turn the table into a projection or display surface.

The following material groups are available: Frame made of steel: M1; Top made of CPL: L2,(white writable); Top made of LIGNOpal: L6; Top made of phenolic (HPL): L4; Top veneered: F1.
