

Product information

NetWork-Media

Computer table.

Frame with round-steel tubular legs and four-sided half-oval tubular-steel top frame, both powder-coated. With functional gap between tabletop and frame to accept accessories and adapters. Table for floor fixing if required.

Table heights are fixed or adjustable in either steps or continuously with a winding handle. Legs fitted with levelling screws.

Tabletop of melamine-resin coated chipboard with glued-on plastic edges.

Features and options. Table with lockable docked-on cable channel. Cable outlet through sealing lip over the full table width. CPU-grid and printer shelf can be docked-on either inside or outside. Vertical cable channel of either solid metal or individually positionable plastic cable clips attached to the leg for cables to floor sockets. Cable channel with four-way power socket. Tables adaptable for linking by means of the cable channel or fixed to the floor if required.

The following material groups are available: Frame made of steel tube: M1; Top made of chipboard: L4.
