

Product information

Series 2000

Typ P. Folding screen.

System consists of a basic screen and one or more (max. 4) add-on elements to create a flexibly-jointed, mobile, free-standing screen.

Construction is based on a four-sided frame of aluminium profile and a filling element. Add-on elements are connected by a flexible joint and can be easily folded together.

Filling elements: **1.** Melamine-resin laminated chipboard. **2. chipboard** laminated with a vitreous-enamelled metal sheet to which magnets adhere (at level 61.05 in). **3.** From a lightweight top with fabric covering. **4.** A melamine-resin laminated sound-absorbing panel with slits. **5.** A translucent double-ribbed board.

Supporting element consists of short struts each with 2 castors and a supporting castor. For safety reasons paravent screens in kindergartens and schools must be fitted with a push-handle.

Please note: Add-on elements or folding screens can be combined with other furniture systems such as the Series 600.

The following material groups are available: Frame made of aluminum: M(anodisé); Stabiliser and foot made of aluminum: M(arctic, black RAL 9011); Writing surface made of steel: E(white); Fabric cover: S46,52,74,78,79,80; Acoustic front made of chipboard: L10; Front made of chipboard: L6.
