

Product information

Serie 501

Shelving unit (top element).

Carcass made of melamine-coated chipboard with glued plastic edge.

Interior fittings with rows of holes for shelves.

Installation: An add-on element can be stacked on top of a wall-mounted base element. A cover plate is available as an optional extra. A 0.8 cm chipboard panel is positioned between all elements to create a shadow gap. Optionally available with black pull-out shelf.

The following material groups are available: Body and bases made of chipboard: L6; Cover top made of chipboard: L6; Cover top veneered: F1.
