

Product information

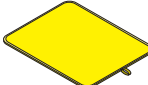

Shift+ Landscape

Carpets for floor-level learning.

Carpet consisting of a top surface made from black hard-wearing artificial fibers, a rubberized slip-proof bottom, and side carrying loop. Available in rectangular and 60° wedge shapes to match the Shift+ cabinets. The small individual carpet can be ideally combined with the Drum storage table.

The **Drum** table body is made from conical ABS plastic, and the top is made from phenolic. The body is stackable. The top can be removed to access the storage space and is equipped with a groove to protect it from slipping. Optionally, the Drum can be equipped with a black polypropylene pen cup in the top.

The following material groups are available: Table body made of plastic: C(white, black grey RAL 7021); Top made of phenolic: L4.
