

Product information

SpaceOrbiter-G Mobile storage element with rails for Gratnells boxes.

Frame made of bent and welded rectangular steel tube on 4 lockable dual-wheel casters and a steel top. Open on all sides. All steel parts are powder-coated.

Modular system consisting of 1 column.

Rail system of plastic guides sits between the frames and ensures a pull-out stop. The rails fit both heights of Gratnells boxes, with or without lids, interchangeably.

Can be positioned freely in the room or under EcoTable-Q or EcoTable-R tables in heights 6 or 7.

The following material groups are available: Frame made of metal: M1; Gratnells plastic box: C3.

* Max. load per box: 11 lbs.			1
