## Serie 800 Cabinet doors

For our cabinet series, we are always guided by the ideas specified by our customers. In doing so, we can manufacture your cabinets individually for you. For reordering cabinet doors, we therefore need some important information. This enables us to ensure that the door supplied fits your cabinet.

The order number (AB) and model number are important for us, as these enable us to identify our cabinets and their versions precisely. If you do not find these on the sticker attached to our piece of furniture, please also fill in the additionally requested properties.

### Note:

You can see which model your cabinet is by the sticker on the backside of the cabinet (with order/AB number, model number and delivery week/LW). On older models, the sticker may also be on the back.

**Please note:** Doors can no longer be manufactured and supplied for the 8000 cabinet series (delivered before 2004).

**Serie 800** from 2012

### Please note the following markings:

blue = model no longer available, only valid for spare parts

### Please contact us if you are unsure of the cupboard series:

Please feel free to send us pictures of the wardrobe if you are unsure which series it is. Pictures of the complete wardrobe, hinge, lock and door are particularly helpful.
