

SPARE PARTS ORDER FORM 45-080-71 V02 - 25.01.2024 - www.vs-moebel.de

Shelf for cabinet furniture.

For our wardrobe series, we are always guided by the ideas specified by our customers. In doing so, we can manufacture your wardrobes individually for you.

For reordering shelves, we therefore need some important information. This enables us to make sure that the delivered shelf fits your wardrobe.

The order number (AB) and model number are important for us, as these enable us to identify our wardrobes and their versions precisely. If you do not find these on the sticker attached to our piece of furniture, we ask you to also fill in the additionally requested properties.

Note:

To identify your model, please note the sticker on the cabinet, container, rack or sideboard with the order number (AB), model number and delivery week (LW). On older models, the sticker may also be on the back.
