Assembly Instruction

Replaceable insert for glide elements

For PantoSwing-, JUMPER -Active, JUMPER -Level, NF-Swing and Level models

Intended use: The replaceable glide elements in this assembly set are only designed for the following models:

PantoSwing: 31400, 31401, 31415, 31420, 31421, 31479

JUMPER Active: 33400, 33401, 33402, 33450, 33451

NF-Swing: 32400, 32401, 32402, 32405, 32406, 32407

JUMPER Level: 33405, 33406, 33407, 33408, 33409, 33455, 33456, 33457, 33458, 33459

Level: 31405, 31406, 31407, 31408, 31409, 31425, 31426, 31427, 31428, 31429

General note on reading and retaining these Instructions: Read these Assembly Instructions carefully before using the products and also pay particular attention to the following symbols and notes:

 **Important!** This symbol indicates an important assembly note.

 **Caution!** This symbol indicates a very important note.

On the Web: These Instructions are also available online for download via the link indicated at the top of the page.

Faults and service: If any faults occur, please contact the VS Customer Service: kundenservice@vs-moebel.de

Maintenance and cleaning: For more information, go to: vs.de/kataloge/reinigung/en

Transfer/disposal: Please note that if the product is transferred to a new owner or user then it must be accompanied by these Instructions. To dispose of this product in an environmentally responsible way, please contact your local authority.

Changing the glide unit inserts: The glide element housings (1) may be equipped with different inserts (2). There are plastic replaceable inserts for soft floor coverings (carpet, felt), dual-component replaceable inserts for elastic floor coverings (linoleum, PVC) and felt replaceable inserts for hard floor surfaces (parquet, tiles). An assembly set consists of four identical inserts.

Important! Always use identical inserts for any given chair.

Removing the old glide element insert [Figure 2]: To dismount the glide element insert (2), insert a suitable tool such as a slot-head screwdriver in the notch on the glide element housing (1) and lever out the replaceable insert.

Assembling the new glide element insert [Figure 3]: Start at the curved side. Present the glide element (2) at an angle and fit into the curve on the glide element housing (1). Then press the new insert fully into the glide element housing.

Caution! The insert engages with an audible clipping sound!
